Justification

Modification Justification (Course Modifications Only)

16. Justification for Modification(s)

- 1.) These are high stakes courses and require a lot of time and preparation on the part of the student.
- 2.) This is a complete hands on learning clinical practicum in anesthesia areas of hospitals.
- 3.) Prior to the program becoming doctoral, all master's clinical practicums were a standard letter grade. There is no justification to change that standard that the program has held since its inception.
- 4.) A letter grade is more conducive to better communicate the level at which a student is performing in the clinical arena. A letter grade is a better indicator of who needs the most help and who is progressing at a higher level.
- 5.) It is easier to measure how a student is mastering program standards

New Course Justification (New Courses Only)

17. Justification for course. Must include:

- a. Academic rationale and goals for the course (skills or level of knowledge students can be expected to attain)

Enter text...

- b. How does the course fit with the mission of the department? If course is mandated by an accrediting or certifying agency, include the directive.

Enter text...

- c. Student population served.

Enter text...

- d. Rationale for the level of the course (lower, upper, or graduate).
