EDUCATION

MS	Arkansas State University, Health Sciences	May 2014
GC	Arkansas State University, Health Care Management	May 2014
BS	Arkansas State University, Clinical Laboratory Science	May 2008

EMPLOYMENT

Assistant Professor Clinical Laboratory Sciences Arkansas State University	2021-Present
Hematology Supervisor Clinical Laboratory Arkansas Methodist Medical Center	2020-2021
Point of Care Supervisor Clinical Laboratory Arkansas Methodist Medical Center	2015-2020
Medical Technologist Clinical Laboratory Arkansas Methodist Medical Center	2009-2015
Medical Technologist Clinical Laboratory Crittenden Regional Hospital	2008-2009

PROFESSIONAL CERTIFICATION

Medical Laboratory Scientist American Society of Clinical Pathology Certification #240839	1/2012
--	--------

PROFESSIONAL AFFILIATIONS

American Society for Clinical Laboratory Science Member #258964796	2021-Present
--	--------------

PROFESSIONAL TRAINING

2022 Legislative Symposium

ASCLS; 6.5 hours; Old Alexandria, VA; 9/2022

ASCP 2015 Annual Meeting

ASCP; Long Beach, CA; 10/2015

Spring 2011 Annual Conference

Tennessee Association of Blood Banks; Memphis, TN; 3/2011

TEACHING EXPERIENCE

Arkansas State University; Jonesboro, AR

8/2021-Present

Assistant Professor, Clinical Laboratory Science

- CLS 4212 10A; Interpreting Lab Data; Undergraduate; 3/2023-Present
 - Overview of the clinical laboratory, explain why laboratory tests are ordered, and how the data obtained from these tests are used by healthcare professionals to provide effective and efficient patient care. An introduction to basic laboratory skills and concepts which enable them to interpret the laboratory results they will encounter throughout their healthcare careers.
- CLS 1511; Principles of CLS Lab; Undergraduate; 1/2023-Present
 - Development of laboratory skills and techniques which are applicable in all clinical laboratory areas.
- CLS 1512; Principles of CLS; Undergraduate; 1/2023-Present
 - Introduction to concepts utilized throughout all the clinical laboratory areas.
- CLS 1521 Urine Body Fluid Analysis; Undergraduate; 1/2023-Present
 - Theory and analysis of urine and body fluids (excluding blood) in normal and pathological states. Techniques of analysis include physical, chemical, and microscopic procedures.
- CLS 1531; Urine Body Fluid Analysis Lab; Undergraduate; 1/2023-Present
 - Performance of urine and body fluid testing procedures necessary to function in a clinical laboratory
- CLS 2551; Case Studies Review for MLT; Undergraduate; 1/2023-Present
 - Discussion of the basic principles of Hematology and Urine Body Fluid Analysis
- CLS 4184; Clinical Practicum II; Undergraduate; 1/2023-Present
 - Clinical laboratory experience in hematology, coagulation, and urinalysis.
- CLS 4212; Interpreting Lab Data; Undergraduate; 1/2023-Present
 - Overview of the clinical laboratory, explain why laboratory tests are ordered, and how the data obtained from these tests are used by healthcare professionals to provide effective and efficient patient care. An introduction to

- basic laboratory skills and concepts that enable them to interpret the laboratory results they will encounter throughout their healthcare careers.
- CLS 4222; Senior Seminar II; Undergraduate; 1/2023-Present
 - Overview of multiple topics related to advanced clinical laboratory practice, plus a formal review in preparation for national certification examinations.
 - HP 3413; Cultural Competence in HP; 1/2023-Present
 - This course is designed to bring the upper-division undergraduate student into a direct interface between the American Health Care Delivery System and Health Care Consumers of diverse intangible cultural heritages and sociocultural backgrounds.
 - CLS 1511; Principles of CLS Lab; Undergraduate; 8/2022-12/2022
 - Development of laboratory skills and techniques which are applicable in all clinical laboratory areas.
 - CLS 1512; Principles of CLS; Undergraduate; 8/2022-12/2022
 - Introduction to concepts utilized throughout all the clinical laboratory areas.
 - CLS 2521; Hematology I Lab; Undergraduate; 8/2022-12/2022
 - Performance of laboratory procedures necessary to function in a clinical hematology laboratory.
 - CLS 2523; Hematology I; Undergraduate; 8/2022-12/2022
 - Discussion of the formation, morphology, and function of various blood cells and the principles of hemostasis. Includes the theoretical elements of related laboratory procedures.
 - CLS 3221; Hematology II Lab; Undergraduate; 8/2022-12/2022
 - Performance of advanced laboratory procedures, recognition of cells and lab values related to hematology disorders, and development of cases related to specified hematology disorders.
 - CLS 3223; Hematology II; Undergraduate; 8/2022-12/2022
 - In-depth discussion of hematologic disorders, causes, laboratory results, and treatment.
 - CLS 4184; Clinical Practicum II; Undergraduate; 8/2022-12/2022
 - Clinical laboratory experience in hematology, coagulation, and urinalysis.
 - CLS 4222; Senior Seminar I; Undergraduate; 8/2022-12/2022
 - Overview of multiple topics related to advanced clinical laboratory practice, including education, management, quality improvement, and research.
 - CLS 4184; Clinical Practicum II; Undergraduate; 6/2022-8/2022
 - Clinical laboratory experience in hematology, coagulation, and urinalysis.
 - CLS 4212; Interpreting Lab Data; Undergraduate; 6/2022-8/2022
 - Overview of the clinical laboratory, explain why laboratory tests are ordered, and how the data obtained from these tests are used by healthcare professionals to provide effective and efficient patient care. An introduction to basic laboratory skills and concepts that enable them to interpret the laboratory results they will encounter throughout their healthcare careers.
 - CLS 1511; Principles of CLS Lab; Undergraduate; 1/2022-5/2022
 - Development of laboratory skills and techniques which are applicable in all clinical laboratory areas.
 - CLS 1512; Principles of CLS; Undergraduate; 1/2022-5/2022

- Introduction to concepts utilized throughout all the clinical laboratory areas.
- CLS 1521 Urine Body Fluid Analysis; Undergraduate; 1/2022-5/2022
 - Theory and analysis of urine and body fluids (excluding blood) in normal and pathological states. Techniques of analysis include physical, chemical, and microscopic procedures.
- CLS 1531; Urine Body Fluid Analysis Lab; Undergraduate; 1/2022-5/2022
 - Performance of urine and body fluid testing procedures necessary to function in a clinical laboratory
- CLS 2551; Case Studies Review for MLT; Undergraduate; 1/2022-5/2022
 - Discussion of the basic principles of Hematology and Urine Body Fluid Analysis
- CLS 4184; Clinical Practicum II; Undergraduate; 1/2022-5/2022
 - Clinical laboratory experience in hematology, coagulation, and urinalysis.
- CLS 4222; Senior Seminar II; Undergraduate; 1/2022-5/2022
 - Overview of multiple topics related to advanced clinical laboratory practice, plus a formal review in preparation for national certification examinations.
- CLS 2521; Hematology I Lab; Undergraduate; 8/2021-12/2021
 - Performance of laboratory procedures necessary to function in a clinical hematology laboratory.
- CLS 2523; Hematology I; Undergraduate; 8/2021-12/2021
 - Discussion of the formation, morphology, and function of various blood cells and the principles of hemostasis. Includes the theoretical elements of related laboratory procedures.
- CLS 3221; Hematology II Lab; Undergraduate; 8/2021-12/2021
 - Performance of advanced laboratory procedures, recognition of cells and lab values related to hematology disorders, and development of cases related to specified hematology disorders.
- CLS 3223; Hematology II; Undergraduate; 8/2021-12/2021
 - In-depth discussion of hematologic disorders, causes, laboratory results, and treatment.
- CLS 4184; Clinical Practicum II; Undergraduate; 8/2021-12/2021
 - Clinical laboratory experience in hematology, coagulation, and urinalysis.
- CLS 4222; Senior Seminar I; Undergraduate; 8/2021-12/2021
 - Overview of multiple topics related to advanced clinical laboratory practice, including education, management, quality improvement, and research.
